How to change the display type for XPAC when the display settings on the current monitor out of range

Applies to:

 53 10.				
Platform	OS version	XPAC utility version		
XPAC series	All versions (WinCE6)	All versions		

N/A: Not applicable to this platform and OS.

The default display resolution of XPAC is "1024*768". If the settings on your monitor are out of range, you are still able to change the display resolution for the XPAC by performing the following steps:

Step 1: Use the remote desktop tool (cerdisp) to connect to your XPAC on the host PC. (For more details about cerdisp, please refer to the document "X2-16_how_to_use_the_remote_desktop_tool_cerhost_english.pdf")

1.1. Reboot your XPAC in boot mode "9". The cerdisp.exe file will auto execute
