Why can not install XPAC SDK software development kit on PC?

Applied to:

| Platform | OS version | XPAC utility version |
|-------------|-----------------------|----------------------|
| XPAC series | All versions (WinCE6) | All versions |
| | | |
| | | |
| | | |

Situations:

The error shown as following happens while installing the XPAC SDK software development kit on PC (XPacSDK_CE_n.n.n.msi, *n.n.n* means the version of XPAC SDK software development kit).

Cause Analysis

This problem is caused by the wrong installation parameter of the XPAC SDK software development kit.

Solution:

You must uninstall the SDK first and reinstall the latest version of SDK downloaded from <ftp://ftp.icpdas.com/pub/cd/xp-8000-ce6/sdk/platformsdk/> (XP-8000-CE6)
<ftp://ftp.icpdas.com/pub/cd/xpac-atom-ce6/sdk/platformsdk/> (XP-8000-Atom-CE6)

Two types of XPAC SDK development package are used for PC installing VS2005 and VS2008.

If VS2005 is only installed on your PC, you just only install XPacSDK_CE_n.n.n_VS2005.msi. Correspondingly, install VS2008 only and only install XPacSDK_CE_n.n.n_VS2008.msi. Both of VS2008 and VS2005 are installed on PC and recommended you to install XPacSDK_CE_n.n.n_VS2008.msi. (*n.n.n means the version of XPAC SDK software development kit*)

If the problem cannot be resolved, please contact us with email.
