In the recent four years since 2003, all the ISaGRAF example programs provided in the ICP DAS CD-ROM & Web site are written in ISaGRAF workbench version of 3.46. If your ISaGRAF workbench is version of 3.51 or later version, it may generate error when you re-compile these example programs.

To erase this kind of error in different ISaGRAF workbench version, please run "Make" – "Touch" once. And then re-compile this example project.
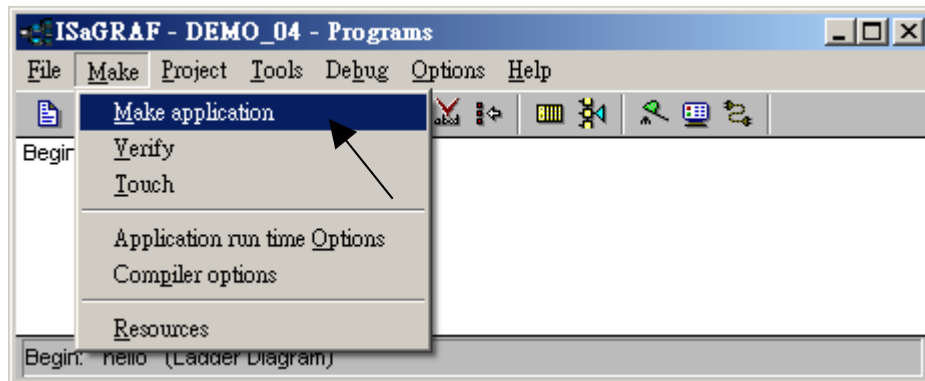

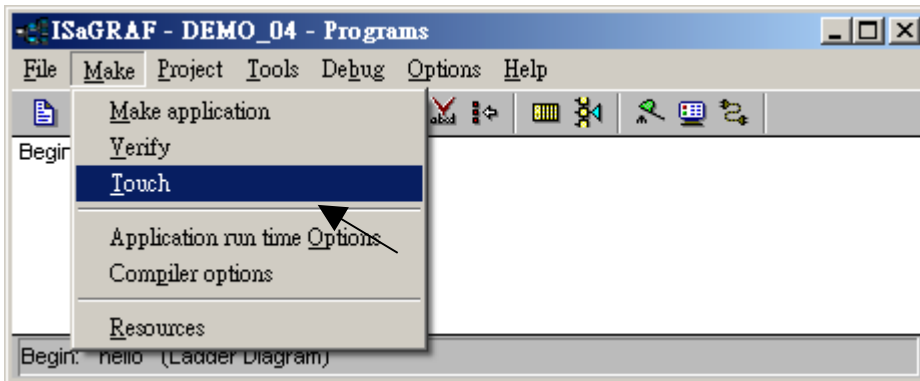

The "Make" – "Touch" command will reset all files that have been successfully compiled to become "Not compiled yet". Then the next "Make" – "Make application" command will re-compile all of them.
