A

A shared printer added using the "local printer attached to this computer" option is only used for WinPAC/ViewPAC via the network.

Selecting "Local printer attached to the PC" in this diagram means a printer (local printer or network printer) that is setting "Local printer attached to this computer" on PC, as show below.

The WinPAC/ViewPAC series **doesn't support** a printer which is set up with the second option:

"A network print or a printer attached to another computer" option.
