How to set up a printer on LAN

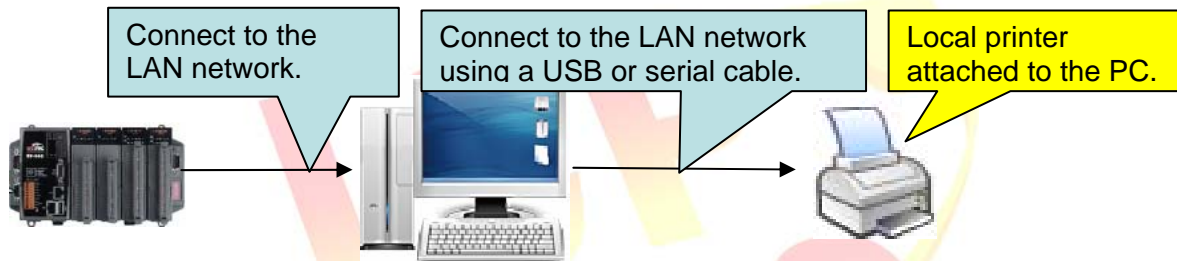

Applies to:

Platform	OS version	WinPAC/ViewPAC utility version
WP-8x3x	All versions	All versions
WP-8x4x	All versions	All versions
VP-25W1	All versions	All versions
VP-23W1	All versions	All versions

Tips & Warnings

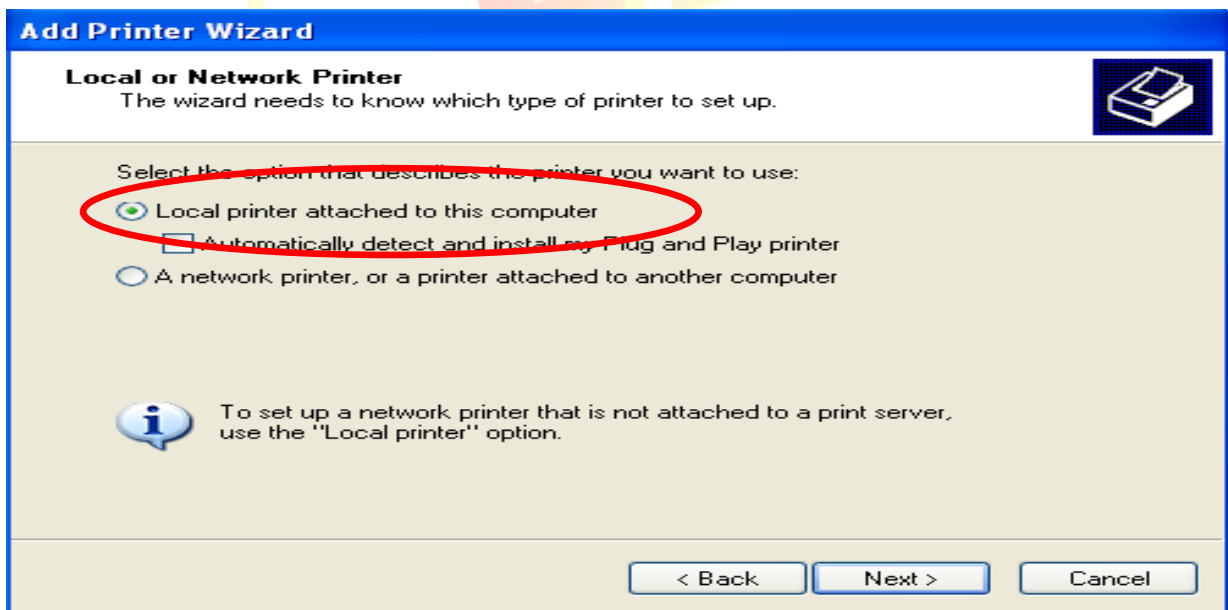

A shared printer added using the "local printer attached to this computer" option is only used for WinPAC/ViewPAC via the network.

Selecting "**Local printer attached to the PC**" in this diagram means a printer (local printer or network printer) that is setting "Local printer attached to this computer" on PC, as show below.

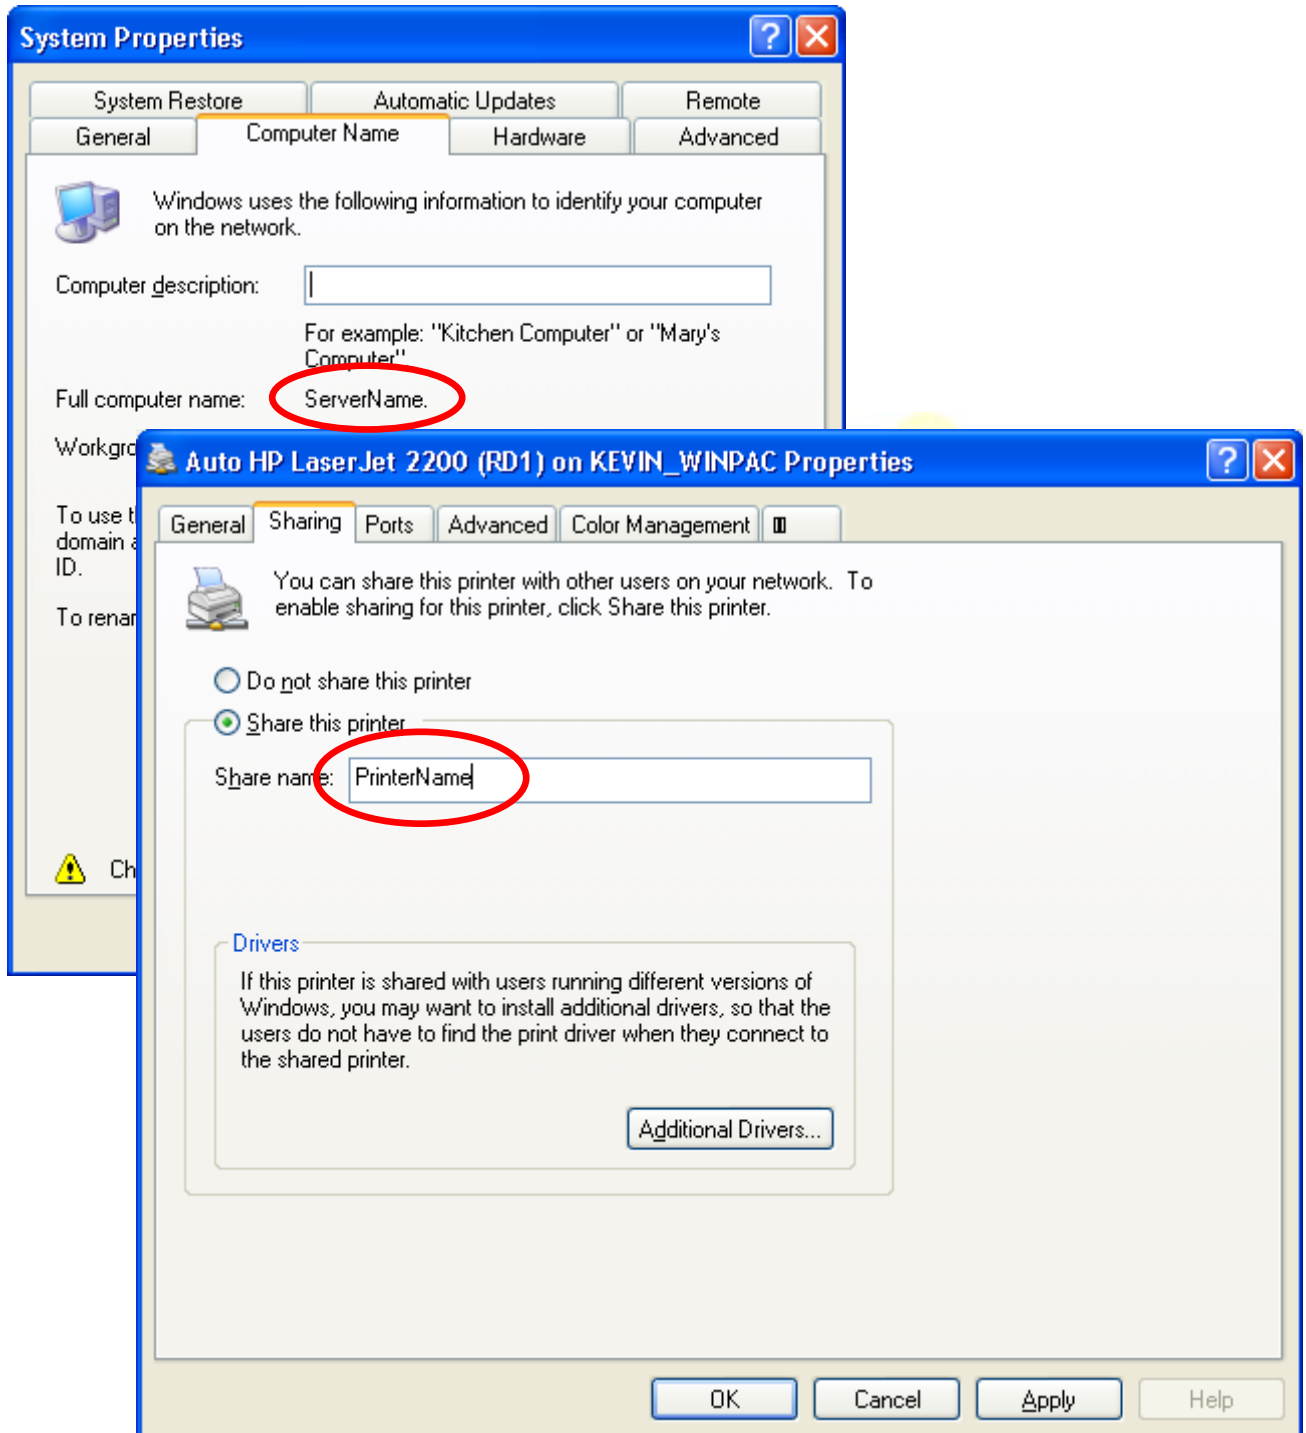

The WinPAC/ViewPAC series doesn't support a printer which is set up by selecting "A network print or a printer attached to another computer" option.

To use a shared printer, perform the following steps:

Step 1: On the Host PC, check the names of the Host PC and the shared printer.

Step 2: On the WinPAC/ViewPAC, open a WordPad format file (*.txt,*.ini...) and click the “File” → “Print”.

Step 3: Set up the printer as following.

Test !!!

3. Enter \\ServerName\PrinterName
