## How to set up the FTP server

Applies to

Platform	OS version	XPAC utility version
XPAC series	All versions (WinCE6)	All versions

The FTP sever is always active on the XPAC, so you can download or upload file from/to PC from XPAC.

To configure enable or disable FTP service < download directory and user login id, perform the following steps:

## Enable or Disable FTP service

Step 1: Execute the XPAC Utility, and then select "Network" Page.
